

In-Stock Chillers

The Right Chiller... Right Now.

A great selection of chillers and condensing units is stocked and ready for immediate shipment – including the industry leading Magnitude® magnetic bearing compressor chillers and Pathfinder® air-cooled chillers.

- Industry leading efficiencies
- Open Choices™ feature for easy integration with your choice of building automation systems
- Compact footprint for easy installation in new or replacement projects
- Select from multiple options and fast, flexible modifications to suit your application

Choose from More In-Stock Chillers Than Ever Before!

Water-cooled Chillers

Magnitude Magnetic Bearing Chillers

- WMC 100 - 400 tons; WME 400 - 700 tons
- World class full and part load efficiencies
- Ideal for “green” projects and retrofits

WGZ Scroll Compressor Chillers

- 30 - 200 tons
- Wide operating range - including Ice Duty

WSC Centrifugal Compressor Chillers

- 250 - 800 tons
- Compact design - Unmatched unloading

Air-cooled Chillers

Pathfinder Air Cooled Chillers

- 175 - 300 tons
- Variable VR technology for optimized efficiency at all operating conditions

AGZ Scroll Compressor Chillers

- 20 - 240 tons
- Quiet, Efficient, Reliable

Chillers in Stock and Ready to Ship!

All of the most popular chiller models, sizes and options are stocked and ready for immediate shipment.

Contact your local Daikin Applied representative for more information on our stock equipment, ready to ship to your job site. To find a Daikin Applied representative near you, visit www.DaikinApplied.com.
